

Care Services North West receives Award of Excellence for Home Care Support Company of the Year 2025

Care Services North West is a national social care consultancy based in Stoke-on-Trent, offering expert support to residential children's care providers throughout the UK. Since its founding in 2022, the company has earned a strong reputation for helping providers improve the quality and standards of care delivered to children, with a particular focus on regulatory compliance, safeguarding, and long-term development. Since the launch of the business, Care Services North West have gone from strength to strength and have recently received an award for Social Care Consultants of the Year from Prestige Awards.

Following on from this success here at E2 Media we have recently unveiled the highly anticipated 2025 Awards of Excellence, spotlighting outstanding achievements across various industries. Among the distinguished winners is Care Services North West who have been given the title 'Home Care Support Company of the Year'. Their exceptional dedication to providing unparalleled service has set them apart, earning them the recognition and admiration of both their industry peers and clients alike. This accolade not only highlights Care Services North West's commitment to excellence but also highlights their consistent efforts to go above and beyond in ensuring a positive and seamless experience for their clients. We think it's important to recognise organisations that are bringing something new and innovative to their marketplace. They don't have to be the biggest but have to be an organisation that is trying to offer something different to what is already out there and above all they must offer a great product or service. We feel that Care Services North West ticks all the boxes and is a worthy winner of our award.

At its core, Care Services North West is driven by a mission to enhance outcomes for children by working directly with care providers to raise the bar on both operational practices and the lived experiences of those in care. This includes offering bespoke services such as compliance auditing, Regulation 44 visits, quality assurance monitoring, and tailored staff training. These services not only help organisations meet and exceed Ofsted and statutory requirements but also support them in building a robust and nurturing care environment.

The vision behind Care Services North West stems from its founder and director, William Mulvaney. With a longstanding background in both local authority and private sectors, William brings a wealth of experience and a deep commitment to improving children's services.

His approach blends strategic insight with hands-on expertise, allowing him to advise providers on everything from governance and inspection readiness to culture change and frontline staff development. He is known for his ability to identify areas for improvement and work collaboratively with organisations to embed sustainable, high-quality practices.

Under William's guidance, the consultancy is helping shape a future where every child in residential care is given the support, safety, and opportunities they deserve. The challenge Care Services North West faces in the future as their reputation grows and the demand for their services continues to increase will be to maintain the same high standards that have given them so much success to date. Given the track record they have we think it's something they will achieve and that Care Services North West is a name you'll be hearing much more of in the years to come.
